The meeting was called to order at 6:55 PM, by President Dan Flesch.

Chef Paul gave the Treasurer's report, which was accepted.

We do have scholarship money available, and are accepting scholarship applications. If you know of someone who may benefit from our scholarship program, please have contact Glenn D'Amour, or check our website.

Chris Callender brought some very tasty smoked fish for us all to try. What a treat!

### **OLD BUSINESS**

"Cooking is for Kids" was held at Hermantown Elementary School. It was a blast! The club taught 6 first grade classes about nutrition, the kids got to participate with hands on the food creating their own cookie pizzas and wrap sandwiches. The kids loved it, and the faculty at the school was very appreciative. If you haven't participated in this event before, I would highly recommend getting involved next year. It is very rewarding!

A special thanks to Gary Baregi for coordinating the whole "Cooking is for Kids" program. With out his effort, this event could have been a disaster. He made it very easy for the chefs involved to accomplish this program. Thanks Gary!
